INDEX TO VOLUME IV

Starred numbers refer to pages in the January, 1917, issue. These pages should have been numbered 1 to 46. Through an error, the paging was continued without interruption from Vol. III. The February issue begins with page 47.

Aagaard, Viktor, New developing formula for *x*-ray plates, IV, 66.
Abbe, Robert, Radium efficiency in non-malignant surgical conditions, Abstract, IV, 265.
The place of radium in the treatment of cancer, Abstract, IV, 538.
Abbott's treatment of scoliosis, On, C. Cramer, Abstract, IV, 427.
Abdomen, Clinical manifestations of unusual lesions in the, P. K. Brown, Abstract, IV, 262.
Abdominal tuberculosis, P. Eisen, IV, 525.
Abstracts:
Abbe, Robert, The place of radium in the treatment of cancer, IV, 538.
Radium efficiency in non-malignant surgical conditions, IV, 265.
A German portable field-roentgen installation, IV, 586.
Aimé, P., Right hydropneumothorax with several pockets in a tuberculous individual, IV, 199.
Arnold, Blood changes in deep roentgen treatment of malignant tumors, IV, 642.*
Aub, J. C., Murphy, J. B., and Means, J. H., The effect of roentgen ray and radium therapy on the metabolism of a patient with lymphatic leukemia, IV, 634.
Aubourg and Petit, Displacement of foreign body during operation, IV, 589.
Bazy, Extraction of projectiles in the lung, IV, 591.
Béclère, A., Roentgen treatment of an intra-abdominal neoplasm of testicular origin, IV, 145.
Bissell, Frank S., The early roentgen diagnosis of pulmonary tuberculosis, IV, 591.
Bissell, Joseph B., Radium dosage, IV, 593.
Radium in various surgical conditions, IV, 318.
Blaine, E., The relation of the roentgenologist to the physician and surgeon, IV, 367.
Blumenthal, Franz, and Karsis, J., The biological effect of roentgen rays on mice, IV, 540.
Boggs, Russell H., The treatment of leukoplakia by radium, IV, 266.
Bosio, Pier Giulio, Roentgenological studies on the influence of alcohol on gastric motility, IV, 429.
Brackett, E. G., and Hall, C. L., Osteochondritis desiccans, IV, 630.
Brickner, Walter M., The cause of the roentgen shadow in cases of subacromial (subdeltoid) bursitis, IV, 636.*
Brown, Philip King (San Francisco), Clinical manifestations of unusual lesions in the abdomen, IV, 262.
Brunemeyer, E. H., and Carlson, A. J., Contributions to the physiology of the stomach: reflexes from the intestinal mucosa of the stomach, IV, 261.
Bryant, John, The ileocecal valve and the chronic intestinal invalid, IV, 427.
Burke, Noel H. M., Electrotherapy in military hospitals, IV, 627.
Carlson, A. J., and Brunemeyer, E. H., Contributions to the physiology of the stomach: reflexes from the intestinal mucosa of the stomach, IV, 261.
Carlsson, P., Tuberculous stricture of the small intestine, IV, 149.
Carman, R. D., and McMahon, F. B., Chronic colitis and its roentgenologic findings, IV, 487.
Carpentier, Locating foreign bodies with a new instrument, IV, 147.
Case, James T., Anencephaly successfully diagnosed before birth, IV, 366.
A roentgenological study of the gastrointestinal tract in diabetes, IV, 634.*
Castro, Aloysio, Visceral inversion, IV, 150.
Chaput, Accidental discovery of syphilitic gummata in roentgen examinations, IV, 151.
Chilaiditi, Radiotherapy of inoperable cancer of the breast, IV, 638.*
Clark, John G., Results obtained by the use of radium in the treatment of cancer of the uterus, IV, 635.*
Cohn, I., Sprains, IV, 590.
Combe, A., Roentgen therapy in tuberculosis in infants, IV, 590.
Corlette, C. E., Left-sided cecum and ascending colon with absence of transverse colon, IV, 590.
Cramer, C., On Abbott's treatment of scoliosis, IV, 427.
Culler, R. M., Syphilis of the stomach, IV, 150.
Davidson, Sir James Mackensie, and Lockhart-Mummery, P., Fragment of shell embedded in the internal popliteal nerve, IV, 629.
Deaver, John B., Operative treatment of fibromyomatous uterine tumors, IV, 263.
De Laborie, Bruneau, Osseous lesions which can not be detected roentgenoscopically, IV, 260.
The necessity of roentgenology in osseous lesions, IV, 151.
Delavan, D. Bryson, Radium in carcinoma of the upper air passages, IV, 591.
Radium in the field of laryngology, IV, 265.
De La Villeon, Petit, Extraction of bullets from the lungs with forceps under guidance of the screen, IV, 153.
Delena and Schoenfeld, Roentgenology of the lower end of the sacral bones and the coccygeal vertebræ, IV, 428.
De Quervain, F., Diverticulum of the stomach following gastric ulcer, IV, 260.
Detre, Georges, Unrecognized fractures of the vertebral column, IV, 627.
Dietrich, A., Comparative studies between chondrodystrophy and osteogenesis imperfecta, IV, 486.
Dietrich, W. C., Roentgen therapy in tuberculosis of bones and joints, IV, 641.*
Dixon, George Sloan, Roentgen ray diagnosis of mastoid disease, IV, 266.
Druener, Locating projectiles with the stereoplanigraph, IV, 428.
Dunker, Fritz, and Loehnberg, Ernest, Two cases

Abstracts—*Continued*
of very grave congenital defects of all extremities, IV, 319.
Ebeler, F., Uterine prolapse and spina bifida occulta, IV, 425.
Erdos, Theodore, and Knudsen, Arthur, A metabolism study of a case of leukemia during radium treatment, IV, 634.
Eusterman, George B., Syphilis of the stomach, IV, 317.
Falls, Frederick H., Opisthotonus fetus, IV, 369.
Fassett, F. J., A method for marking roentgenograms, IV, 536.
Finzi, N. S., Pharyngeal pouches, IV, 539.
Fiorini and Zironi, Immunizing influence of roentgen rays in tuberculosis, IV, 151.
Fischer, J. F., Roentgen exposures in treatment of exophthalmic goiter, IV, 149.
Fraenkel, M., Analgesic effect of roentgen treatment in various affections, IV, 641.*
Freud, Joseph, Roentgen examination of gastro-enterostomized patients with the aid of the duodenal sound, IV, 640.*
Gaarenstroom, G. F., Sarcoma and roentgen rays, IV, 536.
Gouldesbrough, C., A case of fractured scaphoid and os magnum in a boy ten years old, IV, 205.
Graessner, The roentgenological demonstration of spina bifida occulta, IV, 425.
Grandgérard and Le Fort, Tissue osseux de néoformation invisible à la radiographie, IV, 267.
Guttman, J., and Held, I. W., Carcinoma of the esophagus perforating into the right bronchus, IV, 633.*
Hall, C. L., and Brackett, E. G., Osteochondritis desiccans, IV, 630.
Hamburger, Walter W., The modern medical treatment of chronic ulcer of the stomach and duodenum, IV, 639.*
Hammesfahr, Karl, Description of a "searcher" to determine roentgenologically the position of a foreign body immediately before operation, IV, 142.
Hauber, Amberg, On myositis ossificans traumatica circumscripta, IV, 485.
Haudeck, Martin, The callus gap; its forms and significance in the healing process of chronic ulcerations of the bones, IV, 539.
Held, I. W., and Guttman J., Carcinoma of esophagus perforating into the right bronchus, IV, 633.*
Hinman, Frank, Early diagnosis of renal tumor, IV, 593.
Hirtz, G. J., Roentgen examination of the wounded and search for bullets, IV, 150.
Holland, C. T., A note on renal calculi, with an account of an interesting case, IV, 633.*
Holmes, B., and Retinger, J., The relation of cecal stasis to dementia precox, IV, 634.*
Holt vs. Ten Broeck, Liability for roentgen burn, IV, 592.
Homans, John, A study of the symptoms and treatment of congenital transduodenal bands, IV, 422.
Hopkins, A. H., and Pancoast, H. K., The action of pituitrin upon the gastrointestinal tract of man, IV, 488.
Huessy, Paul, and Wallart, J., Interstitial gland and roentgen castration, IV, 642.*

Abstracts—*Continued*
Iglauer, Samuel, The oblique method of roentgenography of the ethmoid and sphenoid cells, IV, 638.
Ingersoll, J. M., The practical value of stereoroentgenograms of the mastoid, IV, 153.
Jacobson, J. H., Recent progress in the treatment of uterine cancer, IV, 263.
Jacobson, J. H., and Murphy, J. T., The mechanics of the stomach after gastroenterostomy, IV, 534.
Jaugeas and Virenque, Course and treatment of infectious osseous lesions, roentgenologically considered, IV, 203.
Karsis, J., and Blumenthal, Franz, The biological effect of roentgen rays on mice, Abstract, IV, 540.
Keefe, John W., The advantages of conservative surgery in operations for diverticulitis of the descending and pelvic colon, IV, 589.
Keene, Floyd E., Value and limitation of radiotherapy in gynecology, IV, 534.
Kennedy, T. C., Radium therapy, IV, 534.
Ketron, L. W., and King, J. H., Gastro-intestinal (especially fluoroscopic) findings in acne vulgaris, IV, 632.*
King, J. H., and Ketron, L. W., Gastro-intestinal (especially fluoroscopic) findings in acne vulgaris, IV, 632.*
Kirmisson (Paris), Rapid metastasis following radium and roentgen treatment applied to malignant tumors, IV, 146.
Knudsen, Arthur, and Erdos, Theodore, A metabolism study of a case of leukemia during radium treatment, IV, 634.
Kuegle, F. H., and Wohl, M. G., *X*-ray immunity, IV, 428.
Le Fort and Grandgérard, Tissue osseux de néoformation invisible à la radiographie, IV, 267.
Legal responsibility for negligence in the application of roentgen rays, IV, 643.*
Lichtenhahn, F., Favorable effect of roentgen treatment in a case of gangrene of the lung, IV, 641.*
Lockhart-Mummery, P., and Davidson, Sir James Mackensie, Fragment of shell embedded in the internal popliteal nerve, IV, 629.
Loehnberg, Ernest, and Dunker, Fritz, Two cases of very grave congenital defects of all extremities, IV, 319.
McCleave, T. T., A case of diaphragmatic hernia, IV, 537.
McMahon, F. B., and Carman, R. D., Chronic colitis and its roentgenologic findings, IV, 487.
Means, J. H., Murphy, J. B., and Aub, J. C., The effect of roentgen ray and radium therapy on the metabolism of a patient with lymphatic leukemia, IV, 634.
Meyer, Arthur, Isolated fractures of the transverse lumbar processes, IV, 426.
Meyer, Fritz M., Roentgen idiosyncrasy in the light of our present knowledge, IV, 642.*
